

Ecosystem Blueprints

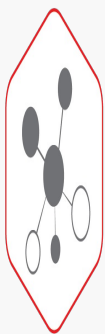

Version 5

Published 7/11/2019 by [tbonnemann](#) Last updated 7/11/2019 9:35

PM by [tpeluso](#)

Use these blueprints to help overcome the barriers of traditional one-to-one connectivity to partners by entering ecosystems of companies, providers, data, processes, clouds and things interconnected digitally to provide mutually beneficial results to all parties involved.

Ecosystems

Respond to business pressures by programmatically discovering value-enhancing regional services while complying with regional mandates in real time.
